Dear Mr. Rees,

Mr. John Hatzistergos, our Minister for Justice and Attorney General in NSW, has stated on the record in the Upper House of the NSW Parliament on November 12, 2008, quoting: "On 28 November the forensic hospital will commence operation".

If by November 29, 2008, my fellow "Human Beings" with mental illness (Forensic patients) and I in the LBH, are not transferred to the new Forensic Hospital, I will then refuse to take all my cardiac medications to protest against 18 hours lock down in the LBH, which commenced on 02/04/08. That will then soon result in my heart attack and death, which is better than what I am experiencing and observing in here.

Then you Mr. John Hatzistergos, Mr. Della Bosca and the rest of your Ministers and Government should be held responsible and accountable for my death in here.

This maximum security prison Mental Health Hospital is a part of NSW under your leadership, and NSW is a part of Australia under the leadership of Mr. Kevin Rudd.

In order to "Advance Australia Fair", you as our democratically elected representative, Leader and Premier in NSW are required to "Advance NSW Fair" too. Otherwise it will be impossible for Mr. Kevin Rudd, his Ministers and his Government to "Advance Australia Fair".

Yours faithfully,

Saeed S. Dezfouli
